

Wirt Ghawdex

Press Release

Fire at St. Cecilia Chapel, Gozo

Wirt Ghawdex strongly condemns the barbaric vandalism on the only surviving medieval chapel in Gozo perpetrated last night when unknown persons forced their way into the chapel and set it on fire. As one can see from the accompanying photographs, considerable, irreparable damage has been wrought.

Wirt Ghawdex has been calling for a number of years for the enforcement of the expropriation order on the chapel which was executed ten years ago. Now, more than ever before, immediate action must be taken by the authorities to safeguard this important monument from total destruction.
